SubjectKraus Info

09/21/2005 01:52 PM

The ERRS contractor is focusing on the drums/containers that are in areas assigned to Kraus. Once that is done, we will work in individual tenant spaces. We have a rough idea of which warehouse space belongs to which tenant.

Our plan within the tenant spaces is to photograph area as is, then collect all of the containers and inventory and photograph, then, move the waste to a central storage location for disposal.

While we work within a particular tenant space, we will look for documents that support the verification of the map of tenants that Kraus provides. The documents may also have some additional contact information that we do not presently have.

Irmee Huhn and I were on site and discussed this approach. Do you agree?
